

ADAPTATION AND MITIGATION STRATEGIES FOR CHILDREN

NOTE: This graphic model is intended to provide an overview of the complex pathways of climate change and their impacts on children. While the most critical linkages are shown, according to current knowledge, others - less significant or less direct - have been omitted with a view to readability.

- 1 Household water supply, sanitation and hygiene
- 2 Groundwater recharge and watershed remediation
- 3 Disaster risk reduction and preparedness
- 4 Environmental protection and restoration
- 5 Renewable energy solutions
- 6 Health-related interventions
- 7 Community capacity building
- 8 Social protection and psychosocial support
